25X1

Dear

25X1

We have enclosed two lists of photos we would like to have ordered immediately. We would like to have one single weight glossy print of each photo.

The first list represents approximately half of the aerial photos we selected last week. They will be used to delineate boundaries and to begin work on the coastal region of the area.

The second list represents photos I selected this week from the spot files of ACIC and are a conglomeration of ground, large scale verticals and oblique photos of specific interests. These we would like to use for the coastal region write-up.

Another list of photography, covering the rest of the area, will follow in a few days.

I hope that the photos requested on the enclosed lists can be expeditiously handled.
